| Math 107 |  |
| :---: | :---: |
| Current <br> Paths | ALEKS 41 |
|  | SBA 3 or 4 |
| Pilot <br> Paths | 3.0 or higher overall <br> GPA |
|  | 2.0 or better in HS Precalculus <br> or 3.0 or better in Algebra 2* |

| Math 141 |  |
| :---: | :---: |
| Current <br> Path | ALEKS 56 |
| Pilot <br> Path | 3.0 or higher overall GPA <br> and 3.0 or higher in either <br> Algebra 2 ${ }^{2}$ or HS <br> Precalculus |

Options included in this document will be available on a pilot basis only for EWU in the HS students beginning spring semester 2019. Schools who desire to participate in this pilot will be required to report additional student data upon reporting grades to determine the effectiveness of the alternate paths. In addition, teachers will report data on students in the course who do not qualify for college credit. The purpose of this is to see if students who do not meet any the criteria for credit are able to be successful in the course, which will impact future pilots.

Student identifiers will be removed prior to any data analysis and reporting.

| Math 142 |  |
| :---: | :---: |
| Current <br> Path | ALEKS 66 |
| Pilot | 3.0 or higher overall GPA <br> and 3.0 or higher in first <br> semester HS Precalculus |

*A grade of 3.0 corresponds to a B. A grade of B or better is required for both semesters of Algebra 2.

## Other important notes:

1. Registration paperwork will now include a column in which the way the student qualifies for the course is entered. If a student qualifies via multiple paths, only include one path in registering.
2. Please be sure that students who enroll in Math 107 are choosing this course because it is best suited for future plans. Math 107 is the math course generally required for liberal arts majors. Elementary education, Business, and STEM majors will not be making progress toward their degree by taking this course.
