## **Changing Course Start and End Date in Canvas**

By default, courses inherit term dates set for you're the assigned quarter or semester. However, as an instructor, you may need to change the start and end dates for your course so students can access the course outside of those dates.

In Course Navigation, click the Settings link and select the Course Details tab.

## Set Course Starts and Ends

Click the **Starts** calendar icon [1]. Click a new start date and time for the course [2]. Repeat for the **Ends** date and time. **Note:** In your end date, if you do not set a time, or you set the end time to midnight, the date *prior* to the set end date will be the last available day in the course. For instance, if the course were set to end May 15, the last full available date for the course would be May 14.
